

Dr Pablo Jimenez

Subinvestigator (Clinical Research Fellow) - The Royal Marsden
NHS Foundation Trust, London

During my specialization as a medical oncologist, I have submitted various clinical research projects to the Spanish Society of Medical Oncology and the American Society, as reported below.

My residency primarily involved clinical training. However, in the past year, I initiated my training at the Early Phase Clinical Trials Unit of Vall d'Hebron Institute of Oncology (VHIO) in Barcelona.

Currently, I am working alongside Professor Kevin Harrington at the Head and Neck Research Unit in The Royal Marsden Institution to complete my training in clinical trials for head and neck tumors, including salivary gland cancer. Additionally, I am actively participating in injectable clinical trials in this tumor subtype.
